Professional Summary

ICT professional specializing in web development, front-end engineering, and ICT support. Experienced in building modern web applications using React, Vite, Tailwind CSS, and JavaScript. Skilled in managing computer labs, software installation, troubleshooting, networking, and digital media solutions. Strong background in livestreaming setups, UI design, and data analysis. Known for delivering reliable technical support, clean user-focused web interfaces, and efficient problem resolution in both field and academic environments.

Education

Bachelor of Science in Information Technology (BSc IT)
Mount Kenya University — Graduated August 2025

Professional Experience

Freelance IT & Front-End Developer — Remote / Field Support *(Present)*

- Developed interactive web applications using **React, Vite, Tailwind CSS, Bootstrap, and JavaScript**.
- Integrated APIs to build responsive and dynamic UI features.
- Designed digital content using **Adobe Photoshop and CapCut**.
- Installed Windows OS and essential software for clients.
- Performed device diagnostics, troubleshooting, and system optimization.
- Configured small-office/home networks and peripheral devices.
- Supported church livestreaming setups: camera configuration, audio routing, lighting, and OBS control.
- Conducted data analysis using **IBM SPSS & STATA**.

Edureka Full-Stack Web Development Internship

May 2025 – September 2025

- Trained in **Full-Stack Web Development**, focusing on front-end and foundational back-end concepts.
- Developed a **Netflix Clone** using **HTML, CSS, and Bootstrap**.
- Built a **Weather Application** using **HTML, CSS, Bootstrap, and JavaScript**.
- Collaborated on project-based exercises following modern UI/UX and responsive design principles.
- Gained hands-on experience with version control, deployment, and best coding practices.

ICT Support Attachment – Kenyatta University Main Campus

May – August 2024

- Supported and maintained a computer lab with 200+ systems.
- Installed antivirus software and enforced ICT security protocols.
- Provided technical support and help-desk assistance to students and staff.
- Installed, configured, and updated software and operating systems.
- Organized and assembled a **12U IT equipment cabinet**.
- Ensured smooth operation of lab networks, printers, and peripherals.

Technical Skills

Web Development: React, Vite, Tailwind CSS, Bootstrap, HTML, CSS, JavaScript, API Integration
Software & Tools: Adobe Photoshop, Canva, CapCut, OBS, Microsoft Office
Operating Systems: Windows installation, configuration & optimization
Networking & Support: LAN setup, basic routing/switching, device troubleshooting
Livestreaming: Cameras, mixers, lighting, OBS
Data Analysis: IBM SPSS

Professional Attributes

- Strong analytical and problem-solving skills
- Excellent communication and customer support
- Ability to manage ICT labs and technical environments
- Keen attention to detail
- Fast learner with the ability to mentor beginner ICT users
